

# Actis Samsung, DNP Denmark & Epson Launch Best of Breed AV Products

Audio Visual Segment gets Organized

Goa, 28 April, 2006

Actis Technologies Pvt. Ltd., India's leading audio visual and environment control solutions specialist and product distributor today launched a range of products in conjunction with Samsung, DNP and Epson. The launch was also witness to efforts of organizing the AV industry in India.

The Star products launched in the Indian market were lead by the all new DNP Supernova screen. For the first time ever this product successfully enables a standard front projector to be used in brightly lit environments. The second in line was the world's smallest multimedia wireless projector the EMP-755 from Epson followed by the professional plasma monitor by Samsung. Present at the launch ceremony were Samba Moorthy from Epson India, Vishal M. from Samsung India and Anjum Parwaiz of DNP Denmark.

Speaking on the occasion, Mr. Manmohan Gupta; M.D of Actis Technologies Pvt. Ltd. said "Actis will consistently channelize its efforts to build and organize the AV sector in India, over the next few years: currently in its nascent stage the industry has a long way to go." He further added, "I will not be surprised if one day it matches the gargantuan proportions of the IT Industry."

Actis has been a pioneer in packaging together the most appropriate equipment for visual and oral communication (large screen displays, sound and conferencing systems) and environmental controls (lighting and HVAC), for corporates, govt, the educational sector and high net worth individuals. As an AV Solutions Specialist, it designs and delivers trusted solutions to help business thrive.
