## Actis Tech launches E-Vantage initiative

Actis Technologies provides innovative offerings and state-of-the-art connectivity solutions in high-definition video and audio communication that are highly beneficial to the education sector

PTI

Hyderabad: Actis Technologies, a Mumbai-based audio visual specialist, on Thursday launched the Ed-Vantage initiative in Hyderabad to educate about the benefits of their solutions.

Actis Technologies provides innovative offerings and state-of-the-art connectivity solutions in high-definition video and audio communication that are highly beneficial to the education sector, Abhimanyu Gupta, director, Actis Technologies told reporters here today.

"With our education and training solutions, people will be able to experience futuristic technologies and are confident that the educational institutions as well as policy-makers will be able to experience our see-hear-experience communication application solutions that showcase actual installed systems in real, full-operational rooms," he said.

Actis also plans to launch Actis Experience Centre in Hyderabad to provide hands-on experience of audio and visual solutions catering to the enterprise - especially education, IT & ITeS, residential, hospitality, and government sectors, Gupta added.
