

Actis Partners with NEC India for LCD Monitors

Mumbai, 20 October, 2008

Actis Technologies, a provider of audio visual and environment control solutions, has partnered with NEC India for industrial LCD monitors.

This alliance will help Actis in providing organizations high quality industrial LCD monitors that are designed to run 24x7, and provide protection against permanent image retention.

Speaking on this partnership, Abhimanyu Gupta, Director, Actis Technologies, said, "The Actis - NEC alliance is adept in providing an all-embracing end-user experience with NEC offering the most advanced products, and Actis providing the room design and build know how coupled with our strong services."

"Our alliance with Actis helps us strengthen our business capabilities in India, and also to expand our IT and networking businesses in the rapidly expanding Indian market," said Sanjay Dhuria, Head (Multi Media Product Group), NEC India.
